

Request for White Papers - FY24 Funding Opportunity

Overview: CIROH invites white papers responding to its research themes and stated research priorities for NOAA, USGS, and USACE (see accompanying descriptions). The anticipated funding source for projects supported under this request will be provided from CI appropriated funds (NOAA) and non-CI appropriated funds (USGS, USACE). This request for white papers will follow the CIROH FY24 Project Development timeline and process description included herein.

Deadline: 5:00 pm CT, November 21, 2023

Submission: [White Paper Submission Link](#)

Requirements:

- The white paper must include the cover page, be no more than 2 pages (not including cover page and cited references), 12pt font, 1-inch margins, PDF format, and use the template provided.
- Respondents must follow the communications protocols (see accompanying document) for interaction with NOAA, USGS, and USACE personnel.
 - **All questions and requests related to this call for white papers must use the dedicated form.**
 - **[FY24 White Paper Question Form.](#)**

Guidelines:

- For your planning purposes consider the scope of your project idea to be on the order of \$250K per year per investigator. CIROH will decide budgets based on funding availability and evaluation of the white paper.
- CIROH restricts the Request for White Papers for the FY24 funding opportunity to CIROH Consortium members and partners only. Researchers outside the consortium may be involved in projects in supporting roles as a sub-awardee to a consortium member or partner.
- Please visit the [CIROH website for FY22 & FY23 project abstracts.](#)
